

## CITIZENS UNITE TO FIGHT UNFAIR TAX

Committee of 100 Will Request Congress Not to Pass the Prouty Amendment.

Characterizing the Prouty amendment to the George bill as unjust and unfair to the District, an immense throng of representative citizens gathered in the room of the New Willard yesterday to protest against acts of Congress that would destroy the half-and-half principle.

A resolution was passed unanimously authorizing the appointment of a committee of 100 citizens to protest to Congress against hasty action affecting the District government. Dr. H. W. Wiley, chairman of the meeting, also will be chairman of the committee, which he will appoint this week. It is the plan to visit Congress Monday and urge all members to carefully consider before passage all legislation involving changes in the administration of the affairs of the National Capital.

**Wiley Urges Peace.**  
Representing the objects of the meeting, Dr. Wiley discouraged denunciation and condemnation of members of Congress, saying, "We meet as citizens and not as politicians. We are not here to quarrel with the Constitution, which is the basis of our government, but to protest against a measure that will destroy the half-and-half principle."

The fundamental doctrine on which the Government is based is the principle of equal rights to all. The proposed measure of saddling all the expenses on the District is a violation of this principle. The measure will not arrive until all means of protection have been tried.

**Proud of Organic Act.**  
Former Senator J. C. R. Blackburn, Kentucky, who wrote the organic act for the District, said he was proud of the act. He said he was in 1878, stirred his auditors' enthusiasm when he declared that it was "a dangerous and an unjust attempt to change the present system of taxation in the District."

## REFUSES JUDGSHIP

SAMUEL J. GRAHAM.

## GRAHAM TO STAY IN LAW DEPARTMENT

Assistant Attorney General Refuses Opportunity to Become U. S. District Judge.

Samuel J. Graham, Assistant Attorney General, has declined to leave the Department of Justice to become a candidate for United States district judge at Pittsburgh to succeed the late Judge James M. Young, though he has been deluged in the last few days with telephone calls, telegrams and letters offering him support and assuring him that he can have the position if he desires it.

Mr. Graham has advised his friends that he cannot accept their support, and does not desire to leave the Attorney General. He has been the assistant to Attorney General McReynolds in charge of administrative matters and appointments since last May. During that time Mr. Graham has been the man to whom the candidates have had their hard luck stories. Every day the ante-room to his office has been filled with friends of applicants.

He has talked to more than 3,000 Democratic bosses and sifted down thousands of nominees. All matters relating to appointments are taken up by Mr. Graham, and his recommendations to the Attorney General are in most cases accepted.

Friends of Mr. Graham who have been urging him to accept the judgeship point out that it is a life position, at a larger salary than that the position of Assistant Attorney General, but Mr. Graham declares he has enjoyed his work, and wishes to remain in a position where he can share in shaping the policies of the Administration.

## Remedy Used By Three Generations

Mothers Who Took it When Children Now Giving it to Their Children.

There must be genuine merit to an article that has stood the test of three generations of users.

In the field of medicine none has had greater success, nor retained that success to a greater degree, than Dr. Caldwell's Syrup Pepsin, which is now being used by three generations of people. Its use in families is constantly becoming more general. The reason, primarily, is that it has merit. It is what it represents itself to be, a laxative-remedy. It does not make exaggerated claims, nor use coarse language to set forth its virtues.

It is a medicine, both so mild and gentle a medicine that thousands of mothers give it to tiny infants, and yet, in a slightly larger dose, it is equally effective for grown-ups. It is for any disorder of the stomach, liver or bowels, for constipation, no matter how chronic, for dyspepsia, no matter how severe, for biliousness, sour stomach, headache, drowsiness after eating, and similar complaints arising from a clogged-up condition of the bowels. It is pleasant to taste and does not gripe. It can be used with safety and good results by anyone at any age or in any condition of health, and that person's health will improve. Every druggist and one dollar a bottle.

Thousands of families throughout the country are never without Syrup Pepsin in the house, among them:

Flourish, No. 18, Independent Order of Red Men, had as its guest of honor Senator Sumner J. Milton, Cal., Miroslava Tribe of Anacostia last night.

The members of the tribe are enthusiastic over the Redman Bulletin, the number of which is to be published next. Great Senior Sumner Join I, which urged the institution of Junior camps.

A meeting of the board of great chiefs will be held Sunday at the home of Great Chief of Records J. B. Altmann.

## GEORGE WILL FIGHT HIS AMENDED BILL

Plans Bitter Campaign Against Measure When It Comes Up On Floor of House.

Congressman Henry George, Jr., whose taxation bill was roughly handled in the House District Committee yesterday, began today to lay the foundation for a campaign against his own measure when it reaches the House. With anything like a representative attendance in the House, Mr. George believes he can strike from the bill the objectionable Johnson-Prouty amendment, which requires that personal and intangible property be assessed at the same rate as real estate, and at full value, the rate to be fixed by Congress.

This amendment was written into the bill yesterday by a House vote, Mr. George protesting that the committee had made no investigation of personal assessment and taxation, although a subcommittee had devoted two years to the real estate taxation problem. His efforts to confine his bill to full value assessments on real estate, the rate to be fixed according to the needs of the District, were unavailing, and it is now a question of defeating the encephalated bill in the House.

**Little Hope of Passage.**  
"I do not believe the bill can go through the House with this amendment attached to it," said Mr. George today. "I shall exert every effort to strike out this amendment and to have the bill, as passed, apply specifically to real estate."

Formal report on the George bill is expected next Monday. The measure may be delayed until Tuesday, when it is unlikely that the remaining sections of the bill, which relate to the administration of the tax assessor's office, will be passed. The bill on the House floor will be waged two weeks from next Monday.

While it is unlikely that the Senate will accept the hastily amended bill now offered by the House District Committee, it is probable that the friends of the bill will get out of the House. The problem is to get out of the friends of the District when the bill is called up.

**Little Interest in District.**  
The average House member takes little interest in District day. Frequently, the attendance is less than fifty of the 435 members of the House. Naturally, the advocates of the Johnson-Prouty amendment will be on hand, as they have been on hand upon former occasions when anti-District legislation was pending. If the "other side" will take as much interest when the George bill is put on passage, there is an excellent show of striking out the amendment and providing, instead, that the District Commissioners, under the budget system, shall name the taxation rate in the District.

A flat rate, arbitrarily fixed by Congress, is a bad thing. It is an injustice, at full value, will raise several millions more than the amount needed by the District under the half-and-half arrangement. The result will be an instant move to repeal the half-and-half law under the plea that the District has no money to run the government, no matter how just the tax burden may be.

**Confer on Child Study.**  
The National Association for the Study and Education of Exceptional Children will meet in the auditorium of the McKinley High School March 11 at 2 p. m. Dr. Philander P. Claxton, president of the association, will preside. Among the speakers will be Dr. Maximilian P. E. Grossman, Senator E. M. Martin, Dr. Thomas A. Williams, Mrs. Arthur A. Birney, and Henry K. Bush-Brown.

## WANTS MARYLAND'S MOTOR LAW CHANGED

Andrew J. Cummings Sends in Bill to Amend State Automobile Regulations.

A bill was introduced in the Maryland legislature today by Andrew J. (Cy) Cummings, proposing several amendments to the Maryland automobile law. The bill seeks to repeal Section 10 R. of Article 56, and the enactment of a new section. It provides, in effect, that all fines, penalties and forfeitures of bonds imposed or collected under any of the provisions of this subsection shall be paid over within ten days after the receipt thereof to the commissioner of motor vehicles.

All money received by the commissioner, except such as shall be necessary for his salary and the expenses of his office shall be accounted for and remitted by the commissioner to the State treasurer, who shall create a special fund.

On the first day of April in each year one-fifth of the fund shall be paid to the mayor and city council of Baltimore for use on the streets of that city. The balance is to be used for the oiling, cleaning and repair of the modern roads now being built by the State and counties, and for no other purpose. The method of expending the remainder of the fund is outlined by the Cummings bill.

As the Washington office of the Maryland motor vehicle commissioner receives nearly \$40,000 annually in license fees, the two counties adjacent to this city, which are to receive two-fifths of this amount, will have a large amount of money to expend on roads if the measure passes.

**Salts Fine for Kidneys, Quit Meat**  
No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications. Wyeth Chemical Co., New York—Adv.
